

## REVEGETATION PLAN FOR RIGHT OF WAY

After reclamation and stabilization, all disturbed areas will be reseeded with the following certified noxious weed seed mixture. The seed will be drilled or broadcast and rolled.

### Dry land Pasture/Roadside Mix

<u>Species</u>	<u>% of Mixture</u>
Intermediate Wheatgrass	30%
Pubescent Wheatgrass	30%
Crested Wheatgrass	20%
Orchard Grass	10%
Alfalfa	10%

\*\*\*Seeding rate of 15 lbs per acre

\*\*Absolutely no substitutions without prior approval.

\*\*\*This mixture can be purchased at KW Feed at a cost of \$1.93/lb.

\*\*\*\*When Revegetation is completed, return this to Sweet Grass County Weed Department.

\*\*\*\*\*A copy of the tag off the one of the seed bags must accompany this document.
